

Crazy Color Quilts

All you need is paper and colors. It's that easy!

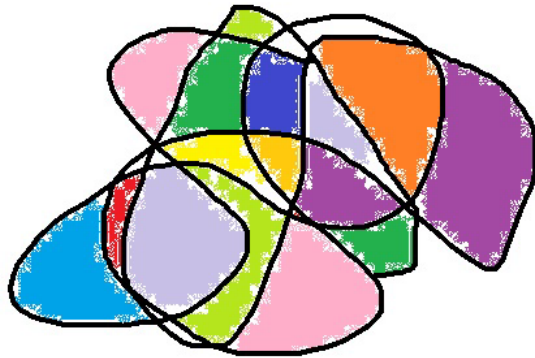

To create a Crazy Color Quilt, take a pen, pencil or color and start swirling.

1. Cover the whole page in one continuous swirl in all directions.

The larger the spaces made, the easier it is to color. For a bigger challenge, you can make smaller spaces to fill.

2. Start Coloring! Choose a color for each space. Try not to fill in any spaces touching with the same color.

3. Share your creation! Post your artwork on the METKids or METPreschool facebook page.
